

Attractions at the Fair.

The fair of the Delaware County Agricultural Society will begin on the grounds at Elwyn on Thursday and continue three days. If the weather is propitious the attendance will doubtless be very large. The exhibition gives promise of exceeding those of any former years and as the crops have been good the farm and garden display will be very fine. The entries for the races are equal to former years and with a good track there will be some exciting speed trials. The poultry, cattle, dogs, horse and machinery departments are filling up rapidly, and these will present attractions to farmers and others. The tribe of Indians will be on hand to give a few points to Delaware county Red Men and their game of Lacrosse is expected to attract a big crowd.
