

Out.  
Progress during the last couple of weeks has been very great in lacrosse, and a lot of new valuable material has been brought to light. The team will be in very good condition when Coach White head arrives from Canada the early part of next month to take charge of it, and the men should be developed very fast from that time on. As the schedule includes Toronto again this year there is a good opportunity for Swarthmore to get hold on the North American championship, as she did in 1906, when she defeated Toronto in the last game of the season.
